

# Screening Trees & Shrubs

## All that you need to know

Finding the right tree or shrub can be an overwhelming task. However, with the right information and having a specific purpose in mind, Good Earth can help you narrow down your options.

### Questions to ask yourself:

- 1. How much sun does the area get?
- 2. What is the desired height?
- 3. What is the desired width?
- 4. Are deer a problem ?
- 5. Evergreen or Flowering?
